DENIS
S. DUJOTA

> WEB DEVELOPER
> A GOOD FRIEND

Who Am I?

I am an adventurer. It can take me to the far east for a bowl of the best ramen on earth or pulling a marathon of Neil deGrasse Tyson. It's that spark of curiosity that drives my passion. Nothing has captivated me more than the journey of being a web developer

What have I done?

Full-Stack Developer - WatsPopp!n (2017)

In a small team, developed a social media analytics application which can display or fetch social media trends or custom searches geographically based on either the search parameters or user location in real time. React.Js front end, Rails + PSQL back end and API Integration- Twitter, FaceBook, Koala, OAuth, Devise, MapBox **https://watspoppinapp.herokuapp.com/**

Risk Management- Bayshore HealthCare (2017)

Created excel tools to maximize report generation efficiency driven by large pools of data. I integrated data driven processes to create a more robust risk analysis of complex and high risk accounts. Hosted regular breakout sessions for Excel

Accounting/Supply Chain - ARI Fleet (2012)

Key contributor to UI/UX feature testing and bug reporting for a manufacturer order direct system. Hosted lunch and learns for stakeholders after deployment. Successfully migrated a large volume of vendors to EDI payment system over traditional cheque resulting in a significant operational cost saving

Loss Mitigation - Wells Fargo (2005)

Completed risk analysis on contracts in credit default recommended for litigation. Created analytical tools to help evaluate the ROI and exposure of a given litigation.

Where have I studied?

Full Stack Web Development - Bitmaker Labs (2017)

- Behaviour driven development, Agile environment
- Front-end stack (HTML5, CSS3, JavaScript)
- Back-end & database stack (Ruby on Rails, PSQL)
- Test stack (RSpec, Minitest, FactoryBot)
- Version control with Git

Humber College (2005)

- Finance/Accounting
